## Redefine Your Air Quality

**PLYMVENT®**  
clean air at work

The AeroGuard Air Monitor can measure the welding fume level in your workplace in real-time. Understand the quality of your workshop air in relation to the NEW Workplace Exposure Standard for Welding Fume (1mg/m<sup>3</sup>).

The AeroGuard is equipped with a diverse array of sensors, monitoring for a variety of pollutants and climate factors that impact your comfort and wellbeing.

## PLYMOVENT **SELF-CLEANING, SINGLE PHASE, MOBILE FUME EXTRACTION SYSTEM**

The Plymovent Self-Cleaning Single Phase Mobile Extraction System is built for professional welders and is suitable for all welding applications including Stick, MIG, TIG, and FCAW.

The system is available as a single arm or dual arm, featuring high-quality metal extraction arm/s. Featuring single phase power and self-cleaning, this unit is plug & play and easy to maintain with low operational costs.

### Features:

- 1 or 2 high-quality metal extraction arms (3 metre)
- Self-cleaning
- Single phase
- 2 swivel castors and ergonomic handles for easy movement
- Super quiet to run
- Washable filter for longer life

## 3M CUBITRON™ III Industrial Abrasives

### FIBRE DISC 1187C

**RE-ENGINEERED 3M PRECISION-SHAPED GRAIN:** Uses Re-Engineered Precision Shaped Grain, a proprietary technology designed with sharp, angular structures that continuously fracture to form sharp points to wear evenly, run cool, and optimize mineral breakdown

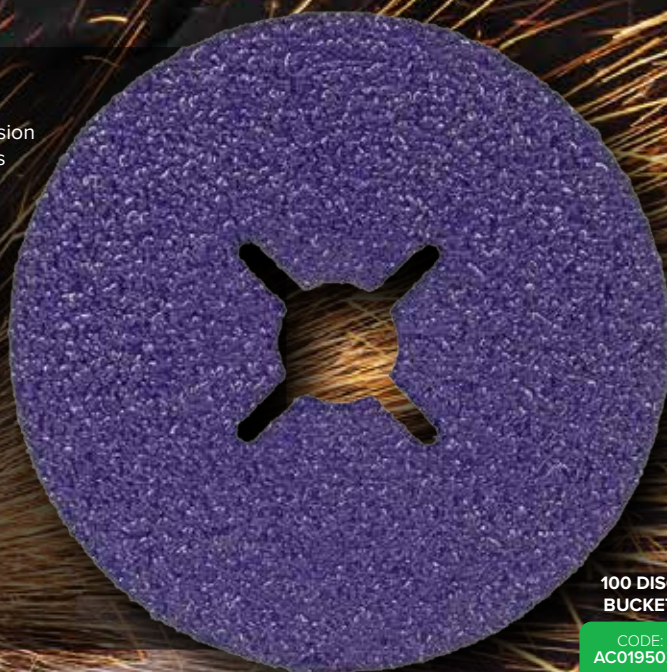

**A WHOLE NEW CUT LEVEL:** Delivers up to 51% faster initial cut rate and up to 61% faster sustained cut rate compared to the 3M™ Cubitron™ II Fibre Disc 982C, 36+

**BUILT TOUGH:** A stiff fiber backing and strong resin bond provide durability and tear resistance for heavy grinding applications, such as medium to high-pressure grinding, weld removal, and beveling — including robotic operations

**COOL CUTTING:** Requires less pressure to use, enabling predictable wear while helping to reduce metal discoloration and the risk of stress cracks on mild or carbon steels

**LONG-LASTING:** Maintains super-sharp points that cut exceptionally fast along the entire life of the fibre disc across a range of application pressures

**STAY PRODUCTIVE:** Designed to deliver more parts completed per disc while cutting down on abrasive waste, reducing changeouts or downtime

- Long service life for demanding applications: powerful and robust angle grinder with highest power density in its class for quick work progress
- Longer service life, more power: the Metabo Marathon-motor with patented dust protection, up to 20% more overload capacity and 50% more torque
- Tool free, fast disc change at the touch of a button with the Metabo M-Quick-System
- Tool-free adjustable guard; twist-proof
- Low-vibration side handle Metabo VibraTech (MVT)
- Metabo S-automatic mechanical safety clutch: minimises kick-back to the lowest level when the disc jams unexpectedly - for maximum user safety and swift progress
- Gear housing can be unscrewed, rotated in 90° steps and remounted for left-handed operation or cutting
- Auto-stop carbon brushes to protect the motor

- HiKOKI AC brushless motor, more compact and lightweight than conventional motors
- Max output 1,900W
- Suits 125mm wheels
- Electronic controller with dust protection
- Dust-resistant filter
- Stable operation during voltage drop
- Electronic speed control maintains the speed even when load increases
- Small grip circumference for greater comfort and control
- Electronic brake stops the wheel within seconds when the trigger is released

Introducing the All-New

The Excision Ebox is an innovative solution for storing and dispensing oil and metalworking fluids safely, easily and efficiently. It's better than any drum.

## HANDHELD LASER WELDER

### CUSTOM SYSTEMS BUILT FOR YOUR SPECIFICATIONS

#### PRODUCT FEATURES

- Self-developed super mini welding head, Light and user-friendly, only 0.5kg
- Unique rotative protective mirror design, 6 times longer service time
- Wobble head with adjustable laser spot diameter (0-5mm)
- Easy laser focus adjustment
- Stepping motor auto wirefeeder, greater stability and accuracy
- Auto wire feeding device controlled by machine software, ensuring high accuracy of feeding/withdraw wire
- Unique design for wire feeding fixture, able to interchange stainless steel and aluminium wire smoothly and conveniently
- Portable welding head support holder avoids head damage
- Patented cabinet designed to EU safety standards

DESCRIPTION	PARAMETER
Laser Power (w)	1000/1500/2000

# WELDER SERVICING & REPAIRS

WeldQuip offer a full range of welder maintenance and repair services, regardless of brand.

## Servicing

Welding machines require regular servicing to ensure they are working to their full capabilities, and to extend the life of the welder. WeldQuip offers welding machine servicing at an affordable rate.

## Repairs

Thanks to our in-store workshop, WeldQuip can troubleshoot, diagnose and repair your welding machine on the premises, avoiding the long wait times that come along with sending the machine back to the manufacturer.

## Training and Troubleshooting

We can provide machine training on selected welding machines, so you can spend more time on your work or project. If something isn't working correctly, call us and we can help you fix the issue.

**Deliver your equipment to us at 2 Hollylea Rd, Leumeah NSW  
for repair & service support**
